

THE RIVER DON TRUST

“River in harmony”

Sponsor a Classroom Hatchery

The Salmon in the Classroom Programme

This programme allows participating schools within the River Don Catchment to take a journey through the life cycle of a salmon. The schools are actively involved in the whole process from rearing the eggs into alevin and fry in their own classroom tanks, cleaning up a local site ready for release, to releasing and identifying the food sources available for the salmon and then monitoring the juvenile salmon as they develop in the river.

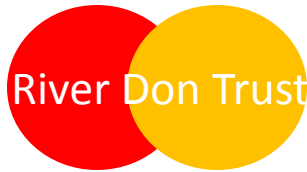

Classroom tank :

Classroom tank Chiller unit:

Fluvial filter and Water pump :

50 Salmon fry:

cost £100

cost £400

cost £40

cost £10

Educating school children about the lifecycle of Salmon?

Priceless!

How can you help?

By sponsoring a classroom hatchery you can help sustain this valuable education project.

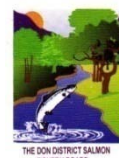

We're looking for individuals, groups or companies to sponsor a classroom hatchery to the value of £500 for the year.

What do you get in return?

Recognition or Sponsorship space on classroom hatchery, acknowledgement by the sponsored school and updates of progress, acknowledgement of contribution in RDT reports, RDT website and RDT publications relating to the SITC project.

Please contact biologist@riverdon.org.uk or 01330 830080 or visit the website www.riverdon.org.uk

Classroom Hatchery Sponsorship
